Ready to implement the **European Green Deal**

250 industry clusters operating in environmental technologies (Several hosting world-leading firms)

**But also...
400 industry clusters operating in digital technologies**

- ▶ Europe needs a digital sector that puts sustainability and green growth at its heart. Digitalisation presents new opportunities for:
- monitoring of air and water pollution,
 - monitoring and optimising how energy and natural resources are consumed.

But...

**We need more key actors on board
and alongside the industry clusters**
