Dear ECCP Member,

Our new website is officially live!

The platform offers many services for our members and we are proud to support clusters who are strengthening the European economy through collaboration.

As part of the EU Industry Days, we officially launched our new website. Read the main takeaways from the event and watch our video that highlights our key services and new features.

Have you updated your profile?

This crucial step allows you to showcase your activities fully and make the best out of the new platform and features. Profiles that aren’t updated will not be able to access certain services.

Our platform has now merged with the European Resource Efficiency Knowledge Centre. This merger helps boost clusters and provide access to new knowledge, technology and market opportunities that help with the green recovery.

New Feature – Our Mapping Tool

Take a look at our new map for industrial clusters and partners!

This mapping tool allows clusters to search and filter by profile type, special thematic areas, location, industry and a range of organisational characteristics.

Try it now

News

The European Expert Group on Clusters recently published a recommendation report on how to use clusters to boost green and digital transitions and resilience.

The report contains 15 specific recommendations, along with examples of good practices.

Learn more
The European Commission has adopted a new EU strategy on adaptation to climate change. Industrial clusters can help build a climate-resilient future through improving knowledge, increase adaptation planning, risk assessments and accelerating adaptation action.

Have you read the new trade policy set by the Commission? Sustainability is at the heart of the new strategy and will strengthen the capacity of trade to support digital and climate transitions.

The High Representative and European Commission have proposed a new Agenda for the Mediterranean. A dedicated Economic and Investment Plan to spur long-term socio-economic recovery in the Southern Neighbourhood has been included.

The EU is to set up new European Partnerships and invest nearly €10 billion in the green and digital transition! Their aim is to accelerate the development and uptake of new innovative solutions across different sectors.

Community news

Our members can now find all the latest news from our cluster community and key stakeholders from across Europe and beyond, including regular updates from us all in one place. Keep sharing your updates with us so we can promote across our social media channels.
