

Pitching session for Collaborative Opportunities

MAREK OSTAFIL

Polish IoT & AI Cluster
- SINOTAIC

Smart Secure
Networks

Organisation

SINOTAIC is a nation-wide ecosystem that takes advantage of the excellence in quality, experience, expertise of the Polish entities to develop world's level, cutting-edge technological, market oriented solutions for various smart industries.

The ecosystem that joins the forces of different types of entities: technology providers, research institutes, universities, local authorities, cities, technology parks, NGOs, economic zones to transform the entire economy into human- centric, supported by most innovative, smart technologies.

Thanks to wide expertise and experience of the Cluster's members we are able to provide cutting-edge, tailor-made technological solutions for a variety of smart industries, with the special focus and understanding of the needs.

We deliver flexible, universal, solutions and services for the global challenges.

Working with variety of customers: SMEs, Public Sector, large enterprises.

Expertise

Cybersecurity

Smart Buildings

Industry 4.0

Machine Learning & Artificial Intelligence

Digital Twin / Big Data

Smart Cities

Critical & ICT Infrastructure

Connectivity - 5G / LoRa

Tailor-made IoT Solutions

Energy efficiency and CO2 reduction

European Digital Innovation Hub

Thanks to its extensive ecosystem a nationwide consortium „Smart Secure Cities” led by Cluster SINOTAIC has won a nomination in the EC call for European Digital Innovation Hubs.

It is one of a few in the European Union, nation-wide consortium with focal point on **Smart City/Smart Regions**.

International dimesion – invitation to cooperation

SINOTAIC is involved in cooperation with international partners in various projects from:
Austria, Germany, Greece, Italy, Ireland, Kenya, Romania, Spain, Saudi Arabia.

Leader and partner in EU funded projects: Erasmus +, DEP, HE

**Co-financed by
European Union**

You are very welcome to join the journey!

Thank you!
