The strength of EIT Manufacturing

To ensure that innovations reach the market, industry has the right talent and entrepreneurs can thrive, EIT Manufacturing connects and integrates the areas of education, innovation and business creation and the Regional Innovation Scheme (RIS).

The future of Manufacturing – our strong partnership

Looking for innovation potential

What we offer:

- Two open calls per year
- Activity durations of max. 2 years (depending on the call)
- Call thematics based on community consultation & topical issues e.g., *Smart technologies for circular and green manufacturing*

What we look for:

- ✓ Focus on **high impact potential** and **breakthrough innovations** (radical, disruptive, transformative)
- ✓ That have reached sufficient maturity (TRL ≥ 6) and **need an extra push to be launched in the market** (TRL ≥ 8)
- ✓ Leveraging a **pan-European consortium** that includes 2+ end users and technology provider(s)
