carriers of Ukraine

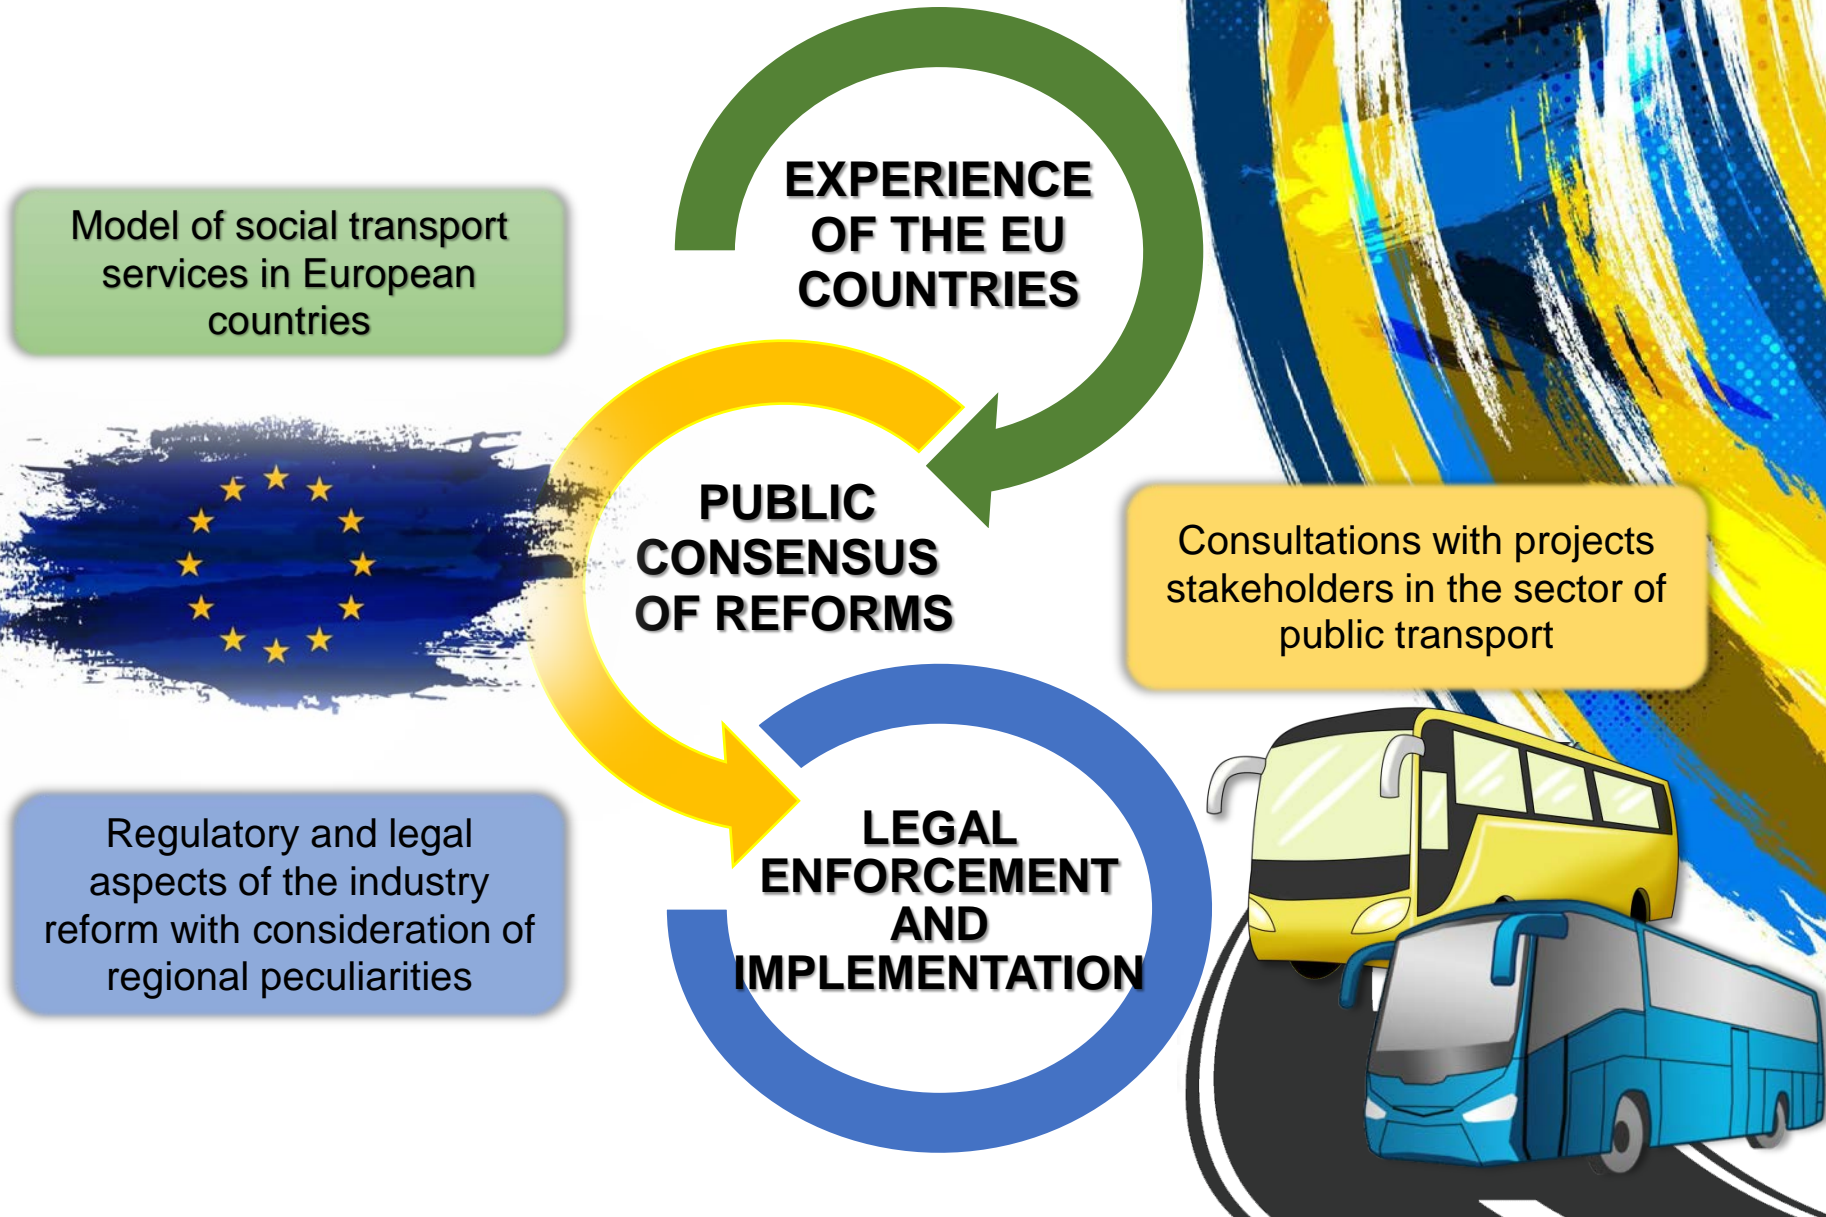

WAR INDESTRUCTIBILITY LOSSES

REFORMING THE INDUSTRY

LOOKING PARTNERS TO work with

**SPECIAL
OFFER**

Prepare preliminary calculations and estimates during consultations

a) the cost, quantity, capacity of new ECO-buses, relevant infrastructure inc intellectual transportation systems to be produced for pilot regions during the period 2024-2025 and for the whole country until 2030.

b) potential strategic program partnerships

c) prospects of involvement of EU and UA-clusters and local industrial parks

d) the conditions of payback of pilot projects and the whole program with given parameters of transport services, costs, rates, subsidies and tariffs.

Upon the readiness of the local/regional authorities to form project groups (e.g. within the framework of the “Burshtyn+ Program”), to develop project proposals and carry out all the necessary procedures in 2023 and start implementation in 2024.
