Introduction of Southwest Hungarian Engineering Cluster (SWHEC)

Southwest Hungarian
ENGINEERING CLUSTER

Who are we?
What do we offer ?
What are we looking for?

Overview of Southwest Hungarian Engineering Cluster

6 big companies

33 SME

1 Knowledge Center

41 Cluster members

Management organisation : Chamber of Commerce and Industry of Pécs-Baranya, 2011

Net revenue:
400 M EUR

Number of Employees:
cc 5000

Our Activities

Southwest Hungarian
ENGINEERING CLUSTER

Offer: Our Product Portfolio

The activities of Cluster Members include :

- **metal processing product manufacturing** (the manufacturing of automotive industry milled components, steel structures, electro-filter casings, rolling-chain tracks, mechanical safety technology equipment, engine and generator casings, instrument casings),
- **machine manufacturing, mechanical equipment manufacturing** (food processing technologies, welded components, fireplaces, cogwheels, painting technology equipment, motors and fans),
- **electric device manufacturing,**
- **motor vehicle manufacturing** (superstructure of aluminium silo vehicles and communal waste collector car),
- installation and maintenance of complete technological systems,
- advanced engineering vocational training, interest representation and laboratory services.

Offer: Our Product Portfolio

But specifically with high added value products:

- Water management technology
- Painting technology
- Custom-tailored machines
- Packaging machines
- Automation of industrial manufacturing technologies
- Hydrogen supplied PEM fuel cells equipments for mobile applications

Looking for:

Widening our portfolio of procurement and seeking new technologies:

- Different electronic parts and devices
- Communication modules, PLC, high quality displays, sensors
- PVDF pipes/rods/sheets/fittings
- For Smart house: smart handles, locks, shutter/lighting controls etc.
- Plate feeding towers for Baykal plane laser
- Small capacity (15 KW - 100 KW) electrolyzing technology

Common product's development:

- 3in1: HIDRO-WELL mobile water treatment plants with bottling line and with solar plant
- Small wind power plants (30-50 kW)

THANK YOU
